State of Washington

HRMS Decentralized Roles Definition Handbook

Revision Date: October 23, 2012

Table of Contents

SECTION 1: INTRODUCTION

Introduction to State of Washington HRMS Roles

HRMS roles determine what activities an end user performs when using the system, which sections of the system an end user has access to, and what training an end user will need to perform their new roles successfully.

Defining roles is an ongoing process. Business processes and activities may change and result in the addition, deletion or modification of some end user roles. When new roles are created or existing roles are deleted or changed, communications are sent to the HRMS Communications Listserv, Attention: Agency Security Administrators.

HRMS Role Definition Components

The HRMS Decentralized Role Definition Handbook includes decentralized HRMS roles. A decentralized role is defined as a role performed by an individual agency. There are several components that describe each of the HRMS roles. These components include the following:

Role Name – Name created based on the activity (or activities) to which the role is linked.

Description – Key responsibilities associated with the role.

Activities – Key activities associated with the role.

Training Course Recommendations – The training courses that will provide the skills, knowledge and attributes that are required for an individual to perform successfully in this role. Information on these classes can be found on the HR web page – www.hr.wa.gov. Click on the Training tab then HRMS Training under the heading Training Programs and Events.

Transaction Code Access – The Transaction Codes each role has access to in HRMS. Only Transaction Codes associated with at least one of the roles in the group are listed. To see a complete list of HRMS Transaction Codes, go to Appendix A Transaction Crosswalk.

Infotype Access – The Infotypes (screens) each role has access to in HRMS. There are Employee Infotypes and Object Infotypes by Object. For Employee Infotypes, access is indicated with the Read (view), Match Code (read with help) and/or Write (update or change) capabilities for each Infotype. Object Infotypes access include Delete (remove), Read (view), and/or Write (update or change) capabilities for each Infotype

SECTION 2: PERSONNEL ADMINISTRATION ROLES

Personnel Administration Processor

Description: The *Personnel Administration Processor role* is responsible for creating and maintaining employee new hire and rehire information, appointment changes, extended leave of absence, and separation actions in HRMS.

The technical name for this role in HRMS is SR3P_DE_PERS_ADMIN_PROC.

Activities: The *Personnel Administration Processor* role will perform the following key activities in HRMS:

- Create and maintain employee organization assignment (e.g., account distribution, organization, position)
- Create and maintain employee new hire and rehire information
    - Personal data (e.g., name, address, gender, date of birth, SSN)
    - Education
    - Previous employment (optional for agencies to use)
    - Date specifications (e.g., anniversary dates, seniority dates, and unbroken dates)
    - Work schedule
    - Residency status (citizenship)
    - Military status
- Create and maintain employee appointment changes (e.g. demotion, promotion and transfers)
- Create and maintain employee extended leave of absence actions (e.g. maternity leave, return from leave)
- Create and maintain employee separation actions (e.g., separation, termination)
- Display employee information in HRMS
- View basic payroll information

Training course recommendations:

- HRMS Basics   01-04-H019
- HRMS Employee Hiring and Processing 01-04-H008
- HRMS Maintaining Payroll Master Data 01-04-H010
- HRMS   Organizational Management   01-04-H011

Personnel Administration Supervisor

Description: The *Personnel Administration Supervisor* role provides oversight for the *Personnel Administration Processor* role (responsible for maintaining new hire and rehire information, appointment changes, extended leave of absence, and separation actions).

The technical name for this role in HRMS is SR3P_DE_PERS_ADMIN_SUPV.

Activities: The *Personnel Administration Supervisor* role will perform the following key activities in HRMS:

- View employee organization assignment (e.g., cost center [account distribution], organization, position)
- View employee new hire and rehire information
    - Personal data (e.g., name, address, gender, date of birth, SSN, emergency contact)
    - Education
    - Previous employment (optional for agencies to use)
    - Date specifications (e.g., anniversary dates, seniority dates, and unbroken dates)
    - Work schedule
    - Residency status (citizenship)
    - Military status
- View employee appointment changes (e.g. demotion and promotion)
- View employee extended leave of absence action (e.g. maternity)
- View employee separation action
- View basic payroll information

Training course recommendations:

- HRMS Basics   01-04-H019
- HRMS Employee Hiring and Processing 01-04-H008

Personnel Administration Inquirer

Description: The *Personnel Administration Inquirer* role has the ability to view human resource information once it is entered in the HRMS system.

The technical name for this role in HRMS is SR3P_DE_PERS_ADMIN_INQ.

Activities: The *Personnel Administration Inquirer* role will perform the following key activities in HRMS:

- View employee organization assignment (e.g., organization, position)
- View employee new hire and rehire information
    - Personal data (e.g., name, address, gender, date of birth, SSN)
    - Education
    - Previous employment (optional for agencies to use)
    - Date specifications (e.g., anniversary dates, seniority dates, and unbroken dates)
    - Work Schedule
    - Residency status (citizenship)
    - Military status
- View employee appointment change actions (e.g. demotion, promotion, and transfer)
- View employee extended leave of absence action (e.g. maternity)
- View employee separation action
- View basic payroll information

Training course recommendations:

- HRMS Basics   01-04-H019
- HRMS Employee Hiring and Processing 01-04-H008

<u>Grievance Administrator</u>

Description: The *Grievance Administrator* role has the ability to create, maintain, and display human resource Grievance information once it is entered in the HRMS system.

The technical name for this role in HRMS is SR3P_DE_GRIEVANCE_ADMIN.

Activities: The *Grievance Administrator* role will perform the following key activities in HRMS:

- o Create and maintain employee grievance tracking information
- o View employee organization assignment (e.g., cost center [account distribution], organization, position)
- o View employee new hire and rehire information
    - ▪ Personal data (e.g., name, address, gender, date of birth, SSN)
    - ▪ Education
    - ▪ Previous employment (optional for agencies to use)
    - ▪ Date specifications (e.g., anniversary dates, seniority dates, and unbroken dates)
    - ▪ Work schedule
    - ▪ Residency status (citizenship)
    - ▪ Military status
- o View employee appointment change actions (e.g. demotion, promotion, and transfer)
- o View employee extended leave of absence action (e.g. maternity)
- o View employee separation action
- o View basic payroll information

Training course recommendations:

- o Contact Labor Relations Office for training on HRMS Grievance tracking
- o HRMS Basics   01-04-H019
- o HRMS Employee Hiring and Processing 01-04-H008
- o HRMS   Organizational Management   01-04-H011

Grievance Inquirer

Description: The *Grievance Inquirer* role has the ability to display human resource Grievance information once it is entered in the HRMS system.

The technical name for this role in HRMS is SR3P_DE_GRIEVANCE_INQ.

Activities: The *Grievance Inquirer* role will perform the following key activities in HRMS:

- o View employee organization assignment (e.g., cost center [account distribution], organization, position)
- o View employee grievance information
- o View employee new hire and rehire information
    - ▪ Personal data (e.g., name, address, gender, date of birth, SSN)
    - ▪ Education
    - ▪ Previous employment (optional for agencies to use)
    - ▪ Date specifications (e.g., anniversary dates, seniority dates, and unbroken dates)
    - ▪ Work schedule
    - ▪ Residency status (citizenship)
    - ▪ Military status
- o View employee appointment change actions (e.g. demotion, promotion, and transfer)
- o View employee extended leave of absence action (e.g. maternity)
- o View employee separation action
- o View basic payroll information

Training course recommendations:

- o Contact Labor Relations Office for training on HRMS Grievance tracking
- o HRMS Basics   01-04-H019
- o HRMS Employee Hiring and Processing 01-04-H008
- o HRMS Organizational Management   01-04-H011

SECTION 3: PAYROLL ROLES

Payroll Processor

Description: The *Payroll Processor* role is responsible for creating and maintaining payroll information for new and existing employees in the HRMS system. New employee payroll information is entered once the human resource information has been entered.

The technical name for this role in HRMS is SR3P_DE_PAY_PROC.

Activities: The *Payroll Processor* role will perform the following key activities in HRMS:

- o Create and maintain employee payroll information
    - ▪ New employee
    - ▪ Appointment changes that result in payroll changes
    - ▪ Separation
    - ▪ Benefits (Medical, Disability, Retirement)
- o Create and maintain additional payments and recurring deductions (e.g., single, recurring, non-cash wage type for educational assistance)
- o Create and maintain bond purchases/denominations (e.g., savings bond)
- o Create and maintain employee leave information (e.g., accruals, shared leave, military leave)
- o View basic personnel information

.**Training course recommendations:**

- o HRMS Basics   01-04-H019
- o HRMS Benefits   01-04-H036
- o HRMS Maintaining Payroll Master Data 01-04-H010
- o HRMS Payroll and Reports   01-04-H003

Payroll Analyst

Description: The *Payroll Analyst* role is responsible for running simulated payrolls, correcting payroll errors, producing and reviewing payroll reports, and executing off-cycle reversals in the HRMS system.

The technical name for this role in HRMS is SR3P_DE_PAY_ANL.

Activities: The *Payroll Analyst* role will perform the following key activities in HRMS:

- o   Simulate regular and off-cycle payroll

- o   Identify and correct payroll errors

- o   Produce payroll reports

- o   Review payroll reports

- o   Execute off-cycle reversals

    - Warrant cancellations

    - EFT reversals

    - Non-authorized manual checks

- o   View basic personnel information

Training course recommendations:

- o   HRMS Basics   01-04-H019

- o   HRMS Maintaining Payroll Master Data 01-04-H010

- o   HRMS Payroll and Reports   01-04-H003

Payroll Supervisor

Description: The *Payroll Supervisor* role provides oversight for the following payroll-related roles:

Payroll Processor (responsible for maintaining payroll information);

Payroll Analyst (responsible for running simulated payrolls, correcting payroll errors, producing and reviewing payroll reports, and executing off-cycle reversals);

Garnishment Administrator (responsible for creating and maintaining employee garnishment information) and

Benefits Processor (responsible for maintaining and updating benefit plan participation information).

The technical name for this role in HRMS is SR3P_DE_PAY_SUPV.

Activities: The *Payroll Supervisor* role will perform the following key activities in HRMS:

- o View payroll information
  - New employee
  - Appointment change
  - Separation
  - Benefits (Medical, Disability, Retirement)
- o View wage types information (e.g., single, recurring, non-cash wage type for educational assistance)
- o View bond purchases/denominations
- o View employee leave information (e.g., accruals, shared leave, military leave)
- o View simulated and released regular and off-cycle payroll
- o View payroll errors
- o View payroll reports
- o View off-cycle reversals
  - Warrant cancellations
  - EFT reversals
  - Non-authorized manual checks
- o View garnishment information
- o View garnishment documents
- o View garnishment orders
- o View basic personnel information

Training course recommendations:

- o HRMS Basics   01-04-H019
- o HRMS Benefits   01-04-H036
- o HRMS Maintaining Payroll Master Data 01-04-H010
- o HRMS Payroll and Reports   01-04-H003
- o HRMS Garnishments   01-04-H009
- o HRMS Personnel Time Recording   01-04-H013

Payroll Inquirer

Description: The *Payroll Inquirer* role has the ability to view payroll information once it is entered in the HRMS system.

The technical name for this role in HRMS is SR3P_DE_PAY_INQ.

Activities: The *Payroll Inquirer* role will perform the following key activities in HRMS:

- o View payroll information
- o View wage types information
- o View savings bond purchases/denominations
- o View employee leave quotas (accruals)
- o View simulated payroll
- o View payroll reports

Training course recommendations:

o	HRMS Basics	01-04-H019
o	HRMS Maintaining Payroll Master Data	01-04-H010
o	HRMS Payroll and Reports	01-04-H003
o	HRMS Garnishments	01-04-H009
o	HRMS Personnel Time Recording	01-04-H013
o	HRMS Quotas	01-04-H037

Tax Reporter

Description: The *Tax Reporter* role allows you to verify your federal deposits and liabilities are in balance after each payroll, create production runs and generation dates at the end of each quarter for your IRS Federal Form 941/Schedule B Quarterly Reports, and make manual year-to-date and deposit adjustments. It also allows you to review and rerun the Form W-2 Wage and Tax Statement for employees.

The technical name for this role in HRMS is SR3P_DE_TAX_REPORTER

Activities: The *Tax Reporter* role will perform the following key activities in HRMS

- o Enter IRS Federal Form 941/Schedule B Quarterly Reports
- o Enter IRS Federal Form 941 X Correction Forms
- o Enter Generation Filing date for 941 Quarterly processes
- o Enter Manual Year-To-Date Adjustments and Deposit Adjustments
- o View W-2 Annual Reporting (W-2's, 6559 report, and W-3 report, and Audit report if elected to run the report)
- o Enter W-2C's for Employees with changes after main Year-End Processing
- o Reprint Employee W-2's for current and past years
- o View 1099R Reporting (Board of Volunteer Firefighters only)

Training course recommendations:

- o HRMS Basics   01-04-H019
- o HRMS Maintaining Payroll Master Data 01-04-H010
- o HRMS Payroll and Reports   01-04-H003
- o HRMS Financial Reporting   01-04-H020
- o Tax Reporter Class   tbd

Benefits Processor

Description: The *Benefits Processor* role is responsible for creating, and maintaining benefit plan participation information for all eligible State employees. In addition, the Benefits Processor provides general benefits advice, guidance, and support to managers and supervisors.

The technical name for this role in HRMS is SR3P_DE_BENE_PROC.

Activities: The *Benefits Processor* role will perform the following key activities in HRMS:

- o Maintain and update employee benefit information

    - ▪ Medical

    - ▪ Retirement

    - ▪ Miscellaneous benefits: Life, LTD, Deferred Comp

- o View basic personnel information

Training course recommendations:

- o HRMS Basics   01-04-H019

- o HRMS Benefits   01-04-H036

- o HRMS Employee Hiring and Processing 01-04-H008

- o HRMS Organizational Management   01-04-H011

Garnishment Administrator

Description: The *Garnishment Administrator* role is responsible for creating and maintaining employee garnishment information for new and existing employees in the HRMS system.

The technical name for this role in HRMS is SR3P_DE_GARNISH_ADMIN.

Activities: The *Garnishment Administrator* role will perform the following key activities in HRMS:

- o   Create and maintain garnishment information (recurring payments and deduction wage types)
- o   Create and maintain garnishment documents
- o   Issue garnishment orders
- o   View basic personnel information

Training course recommendations:

- o   HRMS Basics   01-04-H019
- o   HRMS Garnishments   01-04-H009
- o   HRMS Payroll and Reports   01-04-H003

Leave Corrections Processor

Description: The *Leave Corrections Processor* role is responsible for maintaining employee leave and shared leave information for new and existing employees in the HRMS system. New (or transferred) employee leave information is entered once the human resource information has been entered.

The technical name for this role in HRMS is SR3P_DE_LEAVE_CORR_PROC.

Note: *The Leave Corrections Processor role is a limited access version of the Payroll Processor role. Agencies do not need to map an employee to both roles.*

Activities: The *Leave Corrections Processor* role will perform the following key activities in HRMS:

- o Correct leave quota information
  - Sick leave
  - Annual leave
  - Personal holiday
  - Shared leave
  - Military leave
  - Exchange time
  - Comp time

Training course recommendations:

- o HRMS Basics   01-04-H019
- o HRMS Quotas   01-04-H037
- o HRMS Personnel Time Recording   01-04-H013

SECTION 4: TIME MANAGEMENT ROLES

Time and Attendance Processor

Description: The *Time and Attendance Processor* role is responsible for recording absence and attendance information for new and existing employees in the Cross Application Time Sheet (CATS) component of the HRMS system.

The technical name for this role in HRMS is SR3P_DE_T&A_PROC.

Activities: The *Time and Attendance Processor* role will perform the following key activities in HRMS:

- o Record absence information (other than extended leave of absence)

    - ▪ Sick leave

    - ▪ Annual leave

    - ▪ Personal holiday

    - ▪ Exchange time used

    - ▪ Comp time used

- o Record overtime information

- o Assign time to cost centers or activities when there are exceptions to the assigned cost distribution

- o Enter time for hourly employees

- o Correct absence, attendance and cost center information

- o Update employee work schedules

Training course recommendations:

- o HRMS Basics   01-04-H019

- o HRMS Personnel Time Recording 01-04-H013

- o HRMS Quotas   01-04-H037

Time and Attendance Supervisor

Description: The *Time and Attendance Supervisor* role provides oversight for the following roles:

Time and Attendance Processor (responsible for entering absence and attendance information for new and existing employees) and

Leave Corrections Processor (responsible for maintaining and updating employee leave and shared leave information).

The technical name for this role in HRMS is SR3P_DE_T&A_SUPV.

Activities: The *Time and Attendance Supervisor* role will perform the following key activities in HRMS:

- o View time entry information (other than extended leave of absence)
    - Leave quotas
    - Payroll time entries
- o View overtime information
- o Verify time assigned to cost centers or activities when there are exceptions to the assigned cost distribution
- o View time for hourly employees
- o View corrections to absences and attendance information
- o View quota balances

Training course recommendations:

- o HRMS Basics   01-04-H019
- o HRMS Personnel Time Recording 01-04-H013
- o HRMS Quotas   01-04-H037

Time and Attendance Inquirer

Description: The *Time and Attendance Inquirer* role has the ability to view leave quotas (accrual) and payroll time entries.

The technical name for this role in HRMS is SR3P_DE_T&A_INQ.

Activities: The *Time and Attendance Inquirer* role will perform the following key activities in HRMS:

- o   View time entry information (other than extended leave of absence)

    - ▪   Leave quotas

    - ▪   Payroll time entries

Training course recommendations:

- o   HRMS Basics   01-04-H019

- o   HRMS Personnel Time Recording 01-04-H013

- o   HRMS Quotas   01-04-H037

SECTION 5: ESS ON-LINE LEAVE ROLES

ESS Leave Request Administrator (pre-requisite role needed)

Description: The *ESS LEAVE REQUEST ADMINISTRATOR* role is provided to the professional users in each agency who are responsible for troubleshooting and resolving ESS Leave Request errors and issues. This access is only allowed for agencies that have been configured to use the ESS Leave Request Tool.

This is a **supplemental role** to SR3P_DE_T&A_PROC (Decentralized Time and Attendance Processor role).

The technical name for this role in HRMS is SR3P_DE_ESS_LR_ADMINISTRATOR.

Activities: The *ESS LEAVE REQUEST ADMINISTRATOR* role will perform the following key activities in HRMS:

- o Run the following ESS Leave Request reports in HRMS for troubleshooting and resolving ESS Leave Request errors and issues

    - ▪ ZRPTARQERR (Leave Requests: Process Posting Errors)

    - ▪ ZRPTARQDBVIEW (Display Leave Requests (Database of Requests))

    - ▪ ZRPTARQLIST (Leave Requests: Check)

Employee Infotype for ESS Leave Request Administrator Role

M = Read with Entry Helps R = Read W = Write		
Infotypes	Description	ESS Leave Request Administrator
2001	Absences	RM

ESS Leave Requestor

Description: The *ESS LEAVE REQUESTOR* role provides employees with the appropriate access to submit/change/delete their leave requests using the ESS Leave Request Tool. This access is only allowed for agencies that have been configured to use the ESS Leave Request Tool.

Assign at the agency organizational unit level to authorize the leave requestor functionality for the employees belonging to the organizational unit.

The technical name for this role in HRMS is SR3P_SOW_ESS_LEAVE_REQUESTOR.

Activities: The *ESS LEAVE REQUESTOR* role will perform the following key activities in the ESS Leave Request Tool

- o   Submit Leave Request

- o   Change a Leave Request

- o   Delete a Leave Request

- o   View status of leave requests submitted

- o   View Leave Quota balances (show time accounts)

MSS Leave Approver

Description: The *MSS LEAVE APPROVER* role provides supervisory staff with access to manage their employees leave requests. This access is only allowed for agencies that have been configured to use the ESS Leave Request Tool.

Assign to the supervisor/chief's position for each organizational unit to authorize the approver functionality.

The technical name for this role in HRMS is SR3P_SOW_MSS_LEAVE_APPROVER.

Activities: The *MSS LEAVE APPROVER* role will perform the following key activities in the ESS Leave Request Tool:

- o   Approve Leave requests submitted by their employees

- o   Reject Leave requests submitted by their employees

- o   View their team's calendar

o View their employees Leave Quota balances

o Submit Leave Requests on behalf of their employees

SECTION 6: ORGANIZATIONAL MANAGEMENT ROLES

Organizational Management Processor

Description: The *Organizational Management Processor* role is responsible for creating and maintaining the agency organizational structure and positions as it relates to the HRMS system.

The technical name for this role in HRMS is SR3P_DE_ORG_MANG_PROC.

Activities: The *Organizational Management Processor* role will perform the following key activities in HRMS:

o Create organizational structures (once the organization is established)

o Create organizational relationships

o Run organizational relationship reports

o Run position change report due to reallocations

o Create and maintain positions which includes:

- Assign a job to a position

- Assign compensation

- Account assignment

- Cost center assignment

- Employee group and subgroup assignment

- Assign position to an organizational unit

Training course recommendations:

o HRMS Basics   01-04-H019

o HRMS Organizational Management   01-04-H011

o HRMS Employee Hiring & Processing   01-04-H008

<u>Organizational Management Inquirer</u>

Description: The *Organizational Management Inquirer* role is responsible for displaying the agency organizational structure and positions as it relates to the HRMS system.

The technical name for this role in HRMS is SR3P_DE_ORG_MGT_INQ.

Activities: The *Organizational Management Inquirer* role will perform the following key activities in HRMS:

- o   Run organizational relationship reports

- o   Run position change report due to reallocations

- o   Run reports of existing positions, jobs, and organizational unit

Training course recommendations:

o HRMS Basics	01-04-H019
o HRMS Organizational Management	01-04-H011
o HRMS Employee Hiring & Processing	01-04-H008

SECTION 8: SECURITY ROLES

Security Reporting

Description: The *Security Reporting* role has the ability to view and run reports about security related information in the HRMS system, in order to perform routine agency security audits to monitor your agency's professional user access.

The technical name for this role in HRMS is SR3P_ XXXX _SECURITY_REPORTING. The XXXX is a place holder that represents the Agency's Personnel Area.

Note: This role is replacing the current Security Audit role as a result of Centralizing Security.

Activities: The *Security Reporting* role will perform the following key activities in HRMS:

- o View HRMS role and organizational structure assignments to determine an agency's compliance with State audit regulations

- o View professional user access in HRMS

Training course recommendations:

- o HRMS Basics 01-04-H019

- o Security Reporting training during agency conversion to Central Security or on request

SECTION 9: Business Intelligence (BI)

Introduction:
The Business Intelligence (SAP BI) application retains a historical record of HRMS data and is used to generate a variety of agency-specific and statewide reports. BI is a reporting tool where a user can query and analyze data, extract transactional and master data from HRMS, and it is a repository of aggregated, historical data across days, weeks, months and years.

BI Custom Reports are available via the HRMS Portal. These reports are designed to provide users with flexible reporting options. This allows both End Users and Power Users the ability to apply "user defined settings".

Agency BI End User

Description: BI End Users are the agency BI reporting users, and can only access custom BI reports through the HRMS Portal. If you don't know who your agency's End Users are, contact your agency Security Reporting users. If you don't know who your Security Reporting users are, please contact the DES Service Center.

The technical name for this role in BI is ZS_BI_XXXX_END_USER where XXXX is an agency personnel area.

Activities: The *BI End User* role will perform the following key activities in BI Portal:

- o   Run reports in the HRMS Portal

    - ▪   Canned reports;

    - ▪   Custom agency specific reports created by your agency Power Users, using a bookmark;

Training course recommendations:

BI Self Paced Materials can be found at:
http://www.hr.wa.gov/payroll/HRMS/Training/Pages/BusinessIntelligenceTraining.aspx#Self-P Materials

BI End User Workshops (Check the schedule online):
http://www.hr.wa.gov/payroll/HRMS/Training/Pages/BusinessIntelligenceTraining.aspx

Agency BI Power User

Description: BI Power Users are the designated agency "go to" person for BI reporting questions. BI Power users can access BEx Query Designer and HRMS Portal. If you don't know who your agency's Power Users are, contact your agency Security Reporting users. If you don't know who your Security Reporting users are, please contact the DES Service Center.

The technical name for this role in BI is ZS_BI_XXXX_POWER_USER where XXXX is an agency personnel area.

Activities: The *BI Power User* role will perform the following key activities in BI:

- o Access BEx Query Designer to develop ad-hoc queries for their agency;
- o Create, maintain and delete custom agency specific and personal ad-hoc BI queries;
- o Run reports in the HRMS Portal (canned reports and custom agency specific reports);

Note: Reports run from the HRMS Portal have a different appearance when run from SAP GUI using BEx tools.

Training course recommendations:

BI Self Paced Materials can be found at:
http://www.hr.wa.gov/payroll/HRMS/Training/Pages/BusinessIntelligenceTraining.aspx#PU Materials

BI Power User Workshops (Check the schedule online):
http://www.hr.wa.gov/payroll/HRMS/Training/Pages/BusinessIntelligenceTraining.aspx

In addition to the End User or Power User roles, BI users must have one or more infoprovider roles. The Infoprovider roles give BI users access to various data, such as HR, Finance or Grievance. When requesting user access for BI, please indicate which infoprovider role the user needs.

HR Infoprovider

Description: Access to HR/Payroll/Time data for general reporting purposes.

The technical name for this role in BI is ZS_BI-HR_ANALYSIS.

Activities: The *HR Infoprovider* role gives the following access to BI End and Power Users:

- Employee Specific Payroll Data (ZPY_M01)

- Employee Specific Payroll Data w/PA (ZPY_M02)

- Headcount and Education (ZPA_M50)

- Headcount and Personnel Actions (ZPA_C01)

- Headcount PA MILSVC (ZPA_M60)

- Quota Data (ZPT_M02)

- Staffing Assignments (ZPAOS_C01)

- Time and Labor (ZPT_M01)

Finance Infoprovider

Description: Access to Financial data (AFRS Payroll Data) for general reporting purposes.

The technical name for this role in BI is ZS_BI-FI_ANALYSIS.

Activities: The *FI Infoprovider* role gives the following access to BI End and Power Users:

- AFRS Payroll Data (ZPY_C51)

Grievance Infoprovider

Description: Access to Grievance data for general reporting purposes.

The technical name for this role in BI is ZS_BI-GR_ANALYSIS.

Activities: The *GR Infoprovider* role gives the following access to BI End and Power Users:

- Grievance (ZGR_C01)

- Grievance Data (ZGR_M01)

APPENDIX A: Transaction Crosswalk

The Transaction Crosswalk table shows all transaction codes available in Decentralized roles.

- o Find the transaction code you want in the first column.
- o Read across the row to find the Role group that has at least one role with that transaction.
- o Go to the section in this handbook that shows the individual roles in the role group.
- o Find the role or roles that have the transaction code you want.
- o If there are multiple roles with the transaction code, you will want to choose the one that most closely fits your needs.
